

Web Development Internship – Task 1

Modern Landing Page

Task Description

Your **first challenge** is to create a **beautiful, modern landing page** using **HTML5 & CSS3 only**. Think of it like a mini portfolio piece — something that looks professional, clean, and responsive.

Imagine you are designing a **tech startup homepage** or a **personal portfolio site**. The page should make someone go: *“Wow, this looks amazing!”*

What You’ll Build (Requirements)

Header & Navigation

- Logo / brand name
- Simple nav links (Home, About, Contact)

Hero Section (First Impression Zone)

- Big heading + short catchy tagline
- One CTA button (“Join Now” / “Get Started”)
- Background image or gradient

Features Section

- 3–4 cards with icons/text (use free icons from Flaticon or Font Awesome)

Footer

- Copyright + simple links

Styling

- Use **modern fonts** from Google Fonts
- **Colour gradients** or pastel tones
- Hover effects on buttons & links
- Responsive design (mobile view works well)

Skills You’ll Gain

- ✓ HTML5 structure & semantic tags
- ✓ CSS3 modern styling (gradients, hover effects)
- ✓ Mobile responsiveness (media queries)
- ✓ Portfolio-ready landing page design

📁 Sample Starter Code

👉 Hero Section with gradient background:

html

```
<section id="hero">
  <h1>Welcome to MainCrafts 🚀</h1>
  <p>Build modern web solutions with us</p>
  <a href="#" class="btn">Get Started</a>
</section>
```

CSS

```
#hero {
  height: 100vh;
  display: flex;
  flex-direction: column;
  align-items: center;
  justify-content: center;
  background: linear-gradient(135deg, #667eea, #764ba2);
  color: white;
  text-align: center;
}

.btn {
  background: white;
  color: #764ba2;
  padding: 10px 20px;
  border-radius: 25px;
  text-decoration: none;
  font-weight: bold;
}

.btn:hover {
  background: #fff0f5;
}
```

✅ Deliverable

A **one-page modern responsive landing page** with a hero, features, and footer.
